

# FOR WOMEN'S BENEFIT

## Care of Children's Ears.

In the proper care of the ears in childhood two things have to be considered—the local conditions of the ears, and what is equally important, the general state of the child's health. As to the care of the ear itself, it must always be remembered that the hearing apparatus is a piece of very delicate mechanism, no more suited to rough treatment than is the ball of the eye. It can be easily injured by the introduction of a foreign body, or by a blow from the outside. Small children sometimes push things into their ears by way of experiment. In this case the child's guardians should keep perfectly cool, and send for a physician at once. The child must not be shaken or punished until the object is removed, and above all the nurse or mother must not probe for it with a hairpin or tweezers, for that is the way to push it farther in, or to wound or even rupture the delicate drum membrane—an accident which may be followed by complete deafness and even death, should a serious inflammation ensue.

There is, perhaps, one exception to this rule of leaving a foreign body alone until the doctor comes. Occasionally insects fly into the ear, and cause great anguish by buzzing and fluttering about. They can be speedily disposed of by dropping in a little sweet oil or lukewarm salt water. As to the injury from the outside, children should be carefully guarded against any games which include loud shoutings directly into the ear, and it is surely needless to add that pulling the ears, and above all, boxing the ears as a form of punishment should be held a criminal offense. It may induce partial and temporary deafness, complete deafness and even death, and if indulged in by a teacher should be followed by arrest and public rebuke.

The care of the general health as it affects the hearing is most important in young children, particularly as regards the subject of ventilation, especially at night. Many children who get enough fresh air in the daytime are kept half suffocated at night. Nursery windows must be kept open, nurses must be allowed to close ventilating windows with permission, each child must have its separate cot, placed out of the draft, but with good wide breathing space all around it, and the more signs a child gives of being constitutionally disposed to ear trouble the more stringent should be the observance of these rules.—Youth's Companion.

## Sweet Peas.

Sweet peas are delightful for bouquets—by themselves. But I know of no flower that can be arranged with them without seriously detracting from their beauty. It is the same with nasturtiums and pansies, says Ellen Rexford, in the Ladies' World. If I were going to arrange a vase of sweet peas for the table or the parlor, I would go into the garden and cut my flowers with the longest possible stems, bunching them lightly in my hand as I cut them, but without trying to produce an effect. I would simply bunch them. I would not cut more than a dozen or fifteen stems. Then I would drop them into a rather tall, slender vase of clear glass, of an unobtrusive color, give it a little shape, and let the blossoms show above the water.

## Tact.

An indispensable endowment of the popular girl is the tact, which, you know, is only touch, only feeling very quickly and surely the pulse of a situation, only never treading on people's corns, or hurting them in a sore spot, or saying the wrong thing, says the Ladies' Home Journal. If a girl have the best education that the finest college in the land can give, and the prettiest face in the town, and the most graceful figure in five counties, and have not tact, she will go blundering through life, making enemies, losing friends, and laying up for the future a store of regrets. Tact is inborn with some, but it may be cultivated. To succeed in winning regard and keeping affection a girl must be tactful, must hold her impulsiveness in check, learn self-control, and be on the alert to do and say kind things at the right moment.

The shirt-waist suit of shimmering taffeta grows more and more conspicuous on the street.

A color like the full-blown American Beauty rose distinguishes the smartest evening gowns.

A new waist braid for adorning "tub" shirt-waist suits has a narrow thread of gilt that is warranted to withstand water.

For sashes one of Madame la Mode's smartest fancies is a wide white taffeta ribbon, with chrysanthemums, carnations or roses in natural colors trailing over it.

Our old friend, the collar and cuff set, still is with us this summer, and really much of the style of a shirt-waist suit is gained from these accessories. Those of broderie a la Anglaise are very smart, and Hardanger embroidery or flat stitch is just now much in vogue.

Ribbon decorations for sheer summer frocks are shown in abundance. Floral garlands, vines and bouquets, softened with a silvery sheen are new ideas. Persian Pompadour, gauze, tulle and velvet ribbons are all to the fore, and in clever fingers offer great possibilities.

The deep girle is among the dress accessories in greatest favor. No matter of what fashion or for what purpose it is worn, each gown has its deep girle. Girldes of dainty ribbon, with floating shawl ends and knots of rosettes at intervals are worn with diaphanous gowns.

## THE SERVANT OF THE FUTURE.

Domestic Revolution Which is Predicted For the Future.

That most conservative of periodicals, Chambers' Journal, has recently presented to its readers the views of a number of intelligent men and women regarding the coming domestic revolution. They all seem to agree in regarding such a revolution as inevitable, and profess to believe that the reorganization of domestic life will not be a matter of choice much longer, but one of compulsion.

A careful study of the opinions of these students of household economy has made it possible to form the following composite pen portrait of the servant of the future:

The days of domestic service, as it is at present understood, are numbered. It will soon be quite impossible in a middle-class family to secure the services of any young person willing to work from early morning until late at night. The only domestic service obtainable will be that of a new class of servant, who will be better educated and probably far more intelligent than the present typical maid-of-all-work, but who will be even more independent, if that is possible. Her independence, however, be founded on honorable self-respect and not on ignorance, and will therefore be more endurable. She will be fairly well trained in household duties, and will require to be left alone to perform them to the best of her ability. She will not submit for one moment to anything approaching to dogmatic autocracy, and will demand the same sort of respect and tolerance that is already given cheerfully to the trained nurse. The chief difference between her and the present race of unsatisfactory domestic servants will be that she will only work for a certain number of hours a day, probably eight; she will not sleep in the house, but when her day's work is done she will retire to her own home or to the drawing room, entertainment room or study of the residential club of which she is a member.

For some undefined reason this picture is not a particularly alluring one, and the writers themselves admit that the new order of things will at first be strongly resented by housewives. And not by housewives only will this paragon of domestic servant be looked upon with cold disapproval, for every bachelor who has lived in lodgings during the days when work was done by "merely Mary Ann" will regret the disappearance of that incapable but attractive young person.

## WORDS OF WISDOM.

Self-searching will cure self-seeking. All objects lose by too familiar a view.—Dryden.

No man flatters the woman he truly loves.—Trickerman.

Choose such pleasures as recreate much and cost little.—Fuller.

True greatness lies not in never failing, but in rising every time we fall.

Disappointment is not a sufficient reason for discouragement.—Emmons.

Our doubts are traitors and make us lose the good we oft might win by fearing to attempt.—Shakespeare.

He alone is an acute observer who can observe minutely without being observed.

Religion would not have enemies if it were not an enemy to their vices.—Massillon.

When charity begins at home it frequently acquires very domestic habits.—Brown.

Love is best shown in sacrifice, and blossoms sweetest in the white garments of purity.—Amos.

We understand death for the first time when he puts his hand upon one whom we love.—Madame De Staël.

Fortune's ladder was made to climb, and it is not considered lucky to spend one's time walking under it.—Aron.

If we had no failings ourselves, we should not take so much pleasure in finding out those of others.—Wayside Philosopher.

And I smiled to think God's greatness flows around our incompleteness, round our restlessness, His rest.—E. B. Browning.

The discovery of what is true, and then practice of that which is good, are the two most important objects of philosophy.—The New World.

Prayer is the greatest thing in the world. It keeps us near to God—my own prayer has been most weak, wavering and inconstant, yet has been the best thing I have ever done.—Samuel Chapman Armstrong.

## Sent For Her "Mammy."

A beautiful young lady, a member of one of the richest and most aristocratic families of Henderson, Ky., married a few years ago and went with her husband to New York City and live. The affection between her and her "old black mammy" was very tender, and the separation was hard to bear. After the young wife had settled in the East she determined to have "mammy" come on to visit her, and sent her the money for her ticket.

Imagine the surprise of the prim New Yorker when they saw an old colored girl suddenly pounced upon by an elegantly dressed lady, who threw her arms around her and exclaimed: "My God, my baby! I see so glad to see you, honey."

To her the fine lady was only the little girl, whom she had tenderly nursed in sickness and in health and on whom she had lavished all the love of her simple heart.—Louisville Courier-Journal.

To Tell the Time at Night. Professor Friedrich Hirth, of Munich, has invented an ingenious bedside apparatus by which a person in an electrically lighted bedroom can tell the time with hardly any movement. The invention consists of a lamp, which on a button's being pressed throws upon a ceiling a lighted representation of a small watch lighted by electricity. The figure is sharp and distinct, and is enlarged to the size of a church clock.—London Star.

## THE WEAK SPOT.

A weak, aching back tells of sick kidneys. It aches when you work. It aches when you try to rest. It throbs in changeable weather. Urinary troubles add to your misery. No rest, no comfort, until the kidneys are well. Cure them with Doan's Kidney Pills.

Mrs. W. M. Dauscher, of 25 Water St., Bradford, Pa., says: "I had an almost continuous pain in the small of the back."

My ankles, feet, hands and almost my whole body were bloated. I was languid and the kidney secretions were profuse. Physicians told me I had diabetes in its worst form, and I feared I would never recover. Doan's Kidney Pills cured me in 1896, and I have been well ever since."

A FREE TRIAL of this great kidney medicine which cured Mrs. Dauscher will be mailed to any part of the United States. Address Foster-Milburn Co., Buffalo, N. Y. Sold by all dealers, price 50 cents per box.

## What True Love Is.

Sincere, serious love is never loved at first sight.

When one looks—and the first one, too—blinds a man and woman, you may be sure that one single word will soon be sufficient to unbind them.

Lasting love comes slowly, progressively.

Beauty is not the mother of love. On the contrary, it is often love which engenders beauty—gives brilliancy to the eyes, gracefulness to the body, vibration to the voice.

The face, which reflects all the inner sentiments of the heart, betrays the love of its owner, and is beautiful.

Absence is a tonic for love only when men and women love with all their heart and soul. When they do not, the ancient proverb is still true: "Far from the eyes, far from the heart."—Max O'Rell.

## Odors of Perspiration.

Removed at once from the armpits, feet, etc., by ROYAL FOOT WASH. Stops Chafing, Cures Sweating, Burning, Swollen, Tired Feet. 25c at Druggists, or postpaid from EATON DRUG CO., Atlanta, Ga. Money back if not satisfied. Sample for 25 stamp.

## SELF-MADE WOMAN.

The Mistress—Do you know anything about the lady who used to occupy this house?

The Maid—Nothing to her credit, madam. I am told that she had no maid to superintend her dress. She was what you call a self-made woman.—Chicago Journal.

Disease Germs Cause Sickness. They are in the air we breathe, the water we drink and the food we eat. Any disorder of the blood, stomach or bowels, puts these germs to work and sickness and pain follow. King's Royal Disinfectant removes the cause and restores health. Free Booklet. Write Germantown Medical Co., Dept. C, Barnesville, Ga.

## A PRECIPITANT.

"Mrs. X's new suit came home this morning and she's afraid to show the bill to her husband."

"Way, is it so large?"

"No, it's \$10 smaller than usual, and she thinks he'll cut her allowance if she doesn't keep it up to the usual high figure."—Detroit Free Press.

## Dr. Biggers' Huckleberry Cordial

The Great Southern Remedy, cures all stomach and bowel troubles, children teething. Made from

The Little Huckleberry that grows alongside our turpentine trees, contains an active principle that has a happy effect on the stomach and bowels. It enters largely in Dr. Biggers' Huckleberry Cordial, the great stomach and bowel remedy for Dysentery, Diarrhea and Bloody Flux, etc. Sold by all druggists, 25c and 50c bottles.

## AN EX-CHIEF JUSTICE'S OPINION.

Judge O. E. Lochrane, of Georgia, in a letter to Dr. Biggers, states that he never suffers himself to be without a bottle of Dr. Biggers' Huckleberry Cordial during the summer time, for the relief of all stomach and bowel troubles, Dysentery, Diarrhea, Flux, etc. Sold by all druggists, 25c and 50c bottles. HALLIWANGER-TAYLOR DRUG CO., Proprietors, Atlanta, Ga.

Taylor's Cherokee Remedy of Sweet Gum and Mullein will cure Coughs, Croup and Consumption. Price 25c and \$1 a bottle.

If you are going to the World's Fair you want the best route. The L. & N. is the shortest, quickest and best line. Three trains daily. Through Pullman Sleeping Cars and Dining Cars. Low Rate Tickets sold daily. Get rates from your local agent and ask for tickets via L. & N. STOPROVEN ALLOWED AT MANMOTH CAVE.

All kinds of information furnished on application to J. O. HOLLENBECK, Dist. Pass. Agent, Atlanta, Ga.

## Tomato Sauce.

Put one pint of tomatoes into a saucepan, with a slice of onion. Cook five minutes, then strain. Put one tablespoonful of butter into a pan, add one tablespoonful of flour; when smooth add the tomatoes, stir until thick, and season with salt and pepper to taste.

## When Making Soup.

All the tedious skimming and straining of soup can be avoided if one takes the precaution to put in a small unpeeled onion at the very start and permit it to remain until one is ready to thicken the soup. When lifted out it will be found that this vegetable has served as a magnet to draw to itself all the floating sediment, leaving the broth as clear as crystal, yet in no wise impairing its nourishing quality.

## Farmers' Fruit Cake.

One pound sour dried or evaporated apples, soaked over night in warm water. Drain off water and simmer two hours in two cups molasses. One cup melted butter, half cup thick sour cream, two teaspoonfuls soda, one cup brown sugar, four eggs, four and a half cups sifted flour, browned in the oven, cassia, ginger, cloves, nutmeg, lemon rind grated, each one teaspoonful. Bake in moderate oven.—What To Eat.

## Strawberry Sherbet.

Boil one pound granulated sugar and one quart water together for seven minutes; add the juice of three sour oranges to one quart of strawberries; mash the latter and stand in the sun one hour; when the syrup is cold pour it over the strawberries, strain through a cheesecloth bag and freeze the same as ice cream; add one tablespoonful sugar and beat until white and stiff, remove the dasher, stir in this mixture, repack and stand aside until wanted.

## Curried Rice.

Wash in several waters one cup of rice; put it into two quarts of boiling water; add one teaspoonful of salt; when the rice is nearly tender pour it into a strainer; put over the fire one cup of stock; add to it two teaspoonfuls of curry rubbed in a little cold water; then add the rice to this and cook until tender; serve in the centre of a platter; pour the gravy over it; squeeze the juice of half a lemon over all and sprinkle over it a little chopped parsley.

## Boston Brown Bread.

One even cup Indian meal, two heaping cups rye meal, one teaspoonful soda, one teaspoonful soda, one cup molasses; mix very thoroughly together the meal, salt and soda; add one pint of hot water to the molasses and stir; pour the molasses and water into the middle of the meal and stir till a smooth batter; put in a buttered tin boiler, cover tightly and set in covered iron kettle to boil three hours, adding water as may be necessary; when done set the bread boiler in the water for ten minutes.

## Tomato Jelly.

Pass the contents of a can of tomatoes through a sieve, rejecting nothing but seeds and coarse fibres (if any). Put two cups of this puree over the fire with two slices of onion, two cloves, a sprig of parsley, a piece of bay leaf, four peppercorns, or a bit of green pepper, and two teaspoonfuls of tarragon vinegar. Let simmer fifteen minutes, then skim out the vegetables, etc., and add half a teaspoonful of salt and half a two-ounce package of gelatine, softened by standing some time in three-fourths of a cup of cold water. Stir until the gelatine is dissolved and pour in moulds.

## HINTS FOR THE HOUSEKEEPER.

Cane chair seats become more elastic if washed in hot water and soap. Dry them in the sun and air.

A piece of soft paper wet with kerosene oil will clean an enameled bath tub or bowl that has become dingy.

Dwellers who live in apartment houses should know that turpentine poured down the kitchen drain pipe will keep the water bugs away.

Lamp burners which are in constant use should be boiled occasionally in soda suds, then scrubbed and polished with brick dust, when they will do as good service as new ones.

Save all your broken and crooked carpet tacks and keep them in a box in the kitchen for cleaning bottles. They are better than shot, for the sharp edges scrape off all the stains.

Kerosene added to boiling starch—a tablespoonful to a quart—will prevent the smoothing irons from sticking and will give a gloss to the articles; the scent will all evaporate in the drying.

When silver spoons become discolored from eggs scour them with fine table salt. This will remove the discoloration, which is caused by the sulphur in the egg, and not scratch or wear the silver.

For tomato fritters scald and peel ripe tomatoes and chop them fine. Season with salt and pepper and stir in enough flour to make a thin batter. With the flour mix about half a teaspoonful of soda. Fry in deep fat and serve hot.

Nickel plating which has spots of rust may be cleaned by covering it for a few days with mutton tallow. Follow this treatment with a brisk rubbing with powdered rotten stone and then by a bath in strong ammonia, a rinsing in clear water and a final polishing with dry whiting.

## Syrian Hospitality.

The individual who is lucky enough to be invited to dine at the home of any of the well-to-do Syrians need not be astonished over the elaborate nature of the delicacies of the meal, neither need he refrain from expressing his delight over the good things to eat. The Syrians are a most hospitable lot of people and when they entertain they don't do it in any half-way style. Edibles are unusual and rather queer, but very tasty, and dishes and glasses very dainty. Syrian wines are delicious and so is Syrian coffee, the latter flavored with some kind of perfumed water, just enough to add a delicate, sweet odor. Perfumes, by the way, are very popular with the Syrians, and if a guest is seated with perfume from a dainty glass sprinkler in the hands of the hostess upon entering a Syrian home he must take it all in good part, as that is one of the highest favors that can be bestowed upon a visitor. It is apt to remind one of those obtrusive perfume "demonstrators" girls in department stores, or the grinning, automatic wax ladies in theatre lobbies, the business of each being to raise a hand and spray the faces of passersby, but one must do with the Syrians as he does in the store or the theatre, just snuff and pretend to like it.

## Thrill Wrecked in a Week.

In 1888 as the schooner Albatross was driving east across the Banks in a murky storm she met her end from a low lying berg. Of her crew of ten only two escaped, having out clear the dinghy and launched it over the stern.

Next day they were picked up by the fishing schooner Energy, making for the Newfoundland coast. Driven south by bad weather she sighted two days later the steamer Liddesdale, with a load of cotton, from the Southern States for England. The steamer agreed to take the castaways, and in approaching to get to them collided with the Energy and sank her, though saving the crew.

Thirty-six hours later the Liddesdale herself went ashore near Cape Race and became a total loss. Thus the two men from the Albatross were wrecked three times within a week—berg, steamboat and rock—an experience probably unique.—P. T. McGrath, in McClure's Magazine.

## The Pluck of Edison.

There are today about a quarter of a billion incandescent lamps in this country. The man who has not seen an electric light is looked upon as a curiosity. But it is only twenty-five years since Edison succeeded in making a practical electric light, after three years of failures.

Mr. Edison began his work on an electric light in 1876. In two years he had made nothing but failures and he had lost his health. He took a month's vacation and began again. All the greatest electricians of the world said that an incandescent lamp was impossible. But Edison persevered, and in a few months more he hit upon the right idea. On Christmas Day, 1879, his office was lit up for the first time with the new lights, which are today in all parts of the world.

FITs permanently cured. No fit nervousness after first day's use of Dr. King's Great Nerve Restorer. 50c bottle. Treatise free. Dr. R. H. King, Ltd., 881 Arch St., Phila., Pa.

Freight trains carry 1,250,000 tons per year.

Ladies Can Wear Shoes One size smaller after using Allen's Foot-Ease, a powder. It makes tight or new shoes easy. Cures swollen, hot, aching feet, ingrowing nails, corns and bunions. At all druggists and shoe stores. Don't accept any substitute. Trial package free by mail. Address, Allen S. Olmsted, LeRoy, N. Y.

There is one weekly paper in Oklahoma to every 200 voters.

Mr. Winslow's Soothing Syrup for children teething, softens the gums, reduces inflammation, allays pain, cures wind colic, 25c a bottle.

The modern locomotive costs from \$15,000 to \$18,000.

Piso's Cure is the best medicine we ever used for all affections of throat and lungs.—W. O. Emsley, Yankton, Ind., Feb. 10, 1900.

Since 1871 France has had thirty ministers of war.

To Exploit African Falls. A company has been formed to exploit Victoria Falls, in the Zambesi, and will build a hydro-electric generating station, with the expectation of supplying power to the Wankie coal fields, Bulawayo, the Gwelo, Sebas-kiva and Hatley gold fields, all of which are within 800 miles.

\$100 Reward. \$100. The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known for Catarrh of the bladder, and is a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address, P. J. Cheney & Co., Toledo, O.

Sold by Druggists, Etc. Take Hall's Family Pills for constipation.

HEARING AND SEEING. Enthusiastic Visitor.—If you'll come down into the country with me I'll show you where you can just hear the corn grow!

Unemotional Cityite.—Humph! If you'll come with me over to the board of trade I'll show you where you can see it grow.—Chicago Tribune.

Among the handsome window displays competing for first honors at the recent Confederate Exposition at Nashville, Tenn., was that of the National Casket Co., in way of a handsome Confederate Grey Casket, draped with Silk Confederate Battle Flag with the figure of a Young Soldier, "A Son of the Old Veteran" standing guard, typifying the idea that the "Sons of Confederate Veterans" would faithfully guard his memory. The many visitors were very much impressed with the sentiment of the display made by the National Casket Co.

QUITE TRUE. "Woody" declares his grandfather descended from one of the greatest houses in England.

"Ah! yes. I did hear a story about the old man falling off a roof he was repairing once for Lord Somebody or other."—Philadelphia Press.

## DREW THE CROWD.

Missionary (Guthrieville).—Dear! dear! It's too bad. I am told there has just been a lynching. Deacon Hairtrigger—Yaas, parson; you said you wished we could have a big crowd here to the openin' of the religious revival, and I told you I'd bring 'em.—They're all here.—New York Weekly.
